BMD180411 Awards on the new website

There are a number of “unofficial” awards in the AudaxUK community. Examples include Grimpeur du Sud, SR Ecosse, SR Cymru, SR Wessex, etc. For the most part these awards are devised and administered by a single individual who is also the sole person responsible for devising and administering any rules. The current website appears to list just one of these unofficial awards, namely Grimpeurs du Sud.

The question has arisen with the development of the new website of which awards, if any, we wish listed on the new website. Amongst things the Board may want to consider when reaching their decision is:

- The potential inequality in just opting to list a proportion of these unofficial awards
- The lack of any control that Audax UK has over these awards
- Potential problems with collating a complete list of these awards and keeping it up to date.
