Event Services Report – Board Meeting 11 April 2018

1. Validation Statistics

Numbers of validations for January was again down on last year, but up significantly in February so the overall deficit for the first five months is only 1%. March numbers not available as so many events have been weather affected.

2. Validation Secretaries

Sue & Keith have announced their wish to retire at the end of this season.
Position was advertised in Arrivée 139 with so far only one person expressing interest in finding out about the role. JD and "manual" sent out. Have also contacted other people who have previously expressed interest in volunteering.

3. Brevet Cards

Some distances running out. 23 000 cards of existing design ordered as the promised new design not received from GL. Very slight increase in costs as previous orders have been 40 000 +

4. Perms by GPS

No further applications for this received.

5. Revision of Regulations

There has been some useful debate in the delegate's area of the AUK forum about this. I have created a folder in the Board Dropbox, and will add some documents for discussion either at the Board meeting if time permits, or further in the forum.
