I have created several Membership Reports and these are online at [www.delphcyclist.info/AUKmenu.htm](http://www.delphcyclist.info/AUKmenu.htm). They may take a few seconds to load depending on your internet connection, as the data extract file is big (4110 kB). The data extract lists membership numbers, membership expiry dates, postcodes, country of residence, clubs, male/female flag, but no names, no email addresses, and DOBs in mm/yyyy format.

There are reports on female membership, overseas membership, numbers of commuted members, breakdown of Household membership, age distribution, membership by Regions, Postcodes and Countries, and list of club nominations.

The reports might form part of the Website Refresh project.

## **Website Refresh**

There are several Membership policy changes I have adopted as part of the Website Refresh Project, which I would like the Board to approve. Details of these are on the Forum (see <http://forum.audax.uk/index.php?topic=1250.0>) where there has been some discussion of the topic and useful feedback. I don't believe any changes to current regulations and amendments will be necessary.

- a)** AUK members (and non-members when entering Events) will be allowed to select both a "Main" club (doubling as their ACP club) and "another" club, for accrual of points towards certain Club trophies. The Club List Administration will include the facility to denote clubs as either a Club or a Cycling UK Member Group.
- b)** We will include a facility to freeze Club nominations, enabling us to prevent club switches during the season should we deem this necessary. Change of any club to "Audax UK" will be allowed at any time.
- c)** Registration of Date of Birth (format mm/yyyy) will remain non-mandatory, but if a DOB is not given there will be a mandatory tick box to confirm that the member is aged 18 or over.
- d)** Any enrolments under the age of 18 will require parental approval, unless the enrolment is as a Household Member.
- e)** Members will be able to register their sex as "male", "female" or "not declared" (default as "male"). Only those registered as "male" or "female" can be considered for any awards which have an "other sex" winner's category.
- f)** We include the facility to redact names from the Results Lists.

NB we currently hold Date of Birth in the format "mm/yyyy" and I don't propose to change this. We should only be storing the minimum of personal data, and we don't need the day number to categorise members.
