

Calendar Event Secretary Report 10/1/18

Following the end of the season we can have a look at the breakdown of calendar events that took place.

	BP	BR/ BRM	200	300	400	600	>600	Total
2016/17	308	229	161	34	19	13	2	537
2015/16	314	228	152	34	23	16	3	542
2014/15	310	223	151	36	20	16	0	533
2013/14	311	218	158	31	15	13	2	532
2012/13	334	220	163	29	15	12	1	554
2011/12	320	215	159	27	18	10	1	535
2010/11	310	246	167	32	24	22	0	556
2009/10	322	211	148	21	25	16	1	535
2008/09	317	200	146	23	14	14	3	517
2007/08	320	195	144	25	13	12	1	515

The number of events continues to remain very similar, both overall and at each distance, year on year. This is despite new events accounting for 20-25% of all events each year.

There does appear to have been a slight geographical shift towards the South West as detailed in the table below. I intend to monitor the situation for the time being to determine whether this is an ongoing trend before possibly considering reorganisation of the calendar event "regions".

	50km	100km	200km	300km	400km	600km+	Total
Scotland and North	9	59	45	7	10	8	138
East and Midlands	13	65	36	4	2	0	120
South West	15	70	41	11	4	4	145
South East	13	64	39	12	3	3	134
